HEAR BEAUTY. SEE BEAUTY.

It is no surprise that both design and Hifi enthusiasts love clic.

clic is a well thought out combination of Hifi and exclusive Danish furniture design. The furniture allows you to hide cables, speaker, gaming consoles, software, projector and everything else that disturbs the eye – and make it a part of a stylish setup – without compromising the great sound and design.

The furniture are handmade in Denmark. The idea for the clic furniture arose when the man behind clic, Mike Fabricius, was unable to find a thoroughly thought out piece of furniture that met his demands of presenting Hifi equipment in a stylish way.

With more than 3000 vinyl records on the shelf and a high aesthetic demand, he had no choice but to design a furniture himself.

FUNCTIONS

A WELL THOUGHT
OUT FURNITURE

CHARGER

With a clic charger for iPhone you can store and charge your iPhone directly in the top of the furniture.

BACK PLATES

The clic furniture has a 5 cm. advanced magnet mounted back plate. This allows you to hide cables behind it.

WOOD DOORS

The clic wood doors allow you to hide the items you don't wish to display.

DRAWERS

The drawers in the clic furniture are divided with 2 metal sticks. The metal sticks can be placed in different ways to store all kinds of software or other items.

ALU COVERS

clic's cable are available in 4 different variants. Choose between brass or aluminum in black or silver.

IPAD POND

With a clic iPad pond it is possible to integrate your iPad in the top of a clic furniture. The iPad will be aligned with the top of the furniture.

VENTILATION

With a clic ventilation solution you cool down the items stored behind a wood or a fabric door.

FABRIC DOORS

The clic furniture is available with fabric doors allowing you to hide your music or movie system and control it through the fabric doors and allowing the sound to come out - without opening the doors.

CABLE HOLES

All clic models have one cable hole center in the top plate.

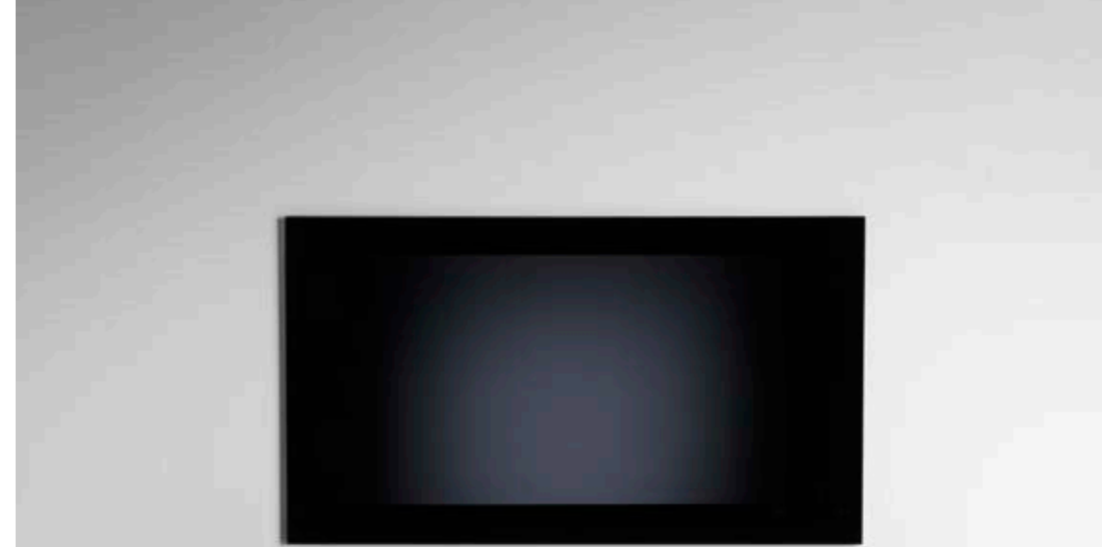

When ordering a clic furniture it is important to consider how many cable holes you need. For instance: Do you need cables from the furniture up to your flatscreen, a turntable or a lamp? Or do you need extra cable holes for our charger or ventilation solution?
