THE IDEA IS QUITE SIMPLE

unnu is a furniture range in a stylish design with functions so well thought out that the overall solution is a treat for both eyes and ears. Many of the functions are mainly to insure a stylish decoration including sound and picture. All the modules can be combined and are produced in MDF. They can hide all that needs to be hidden, and let design and sound dominate the room.

The connection between quality, functionality and aesthetics is nothing less than perfect.

The unnu furniture are produced and fully assembled in Denmark – and we love the details: Special designed metal angles that provides the furniture with a unique strength, movable back plates to hide all the cables, holes in the top and bottom for cables to go in and out of the furniture and last but not least, a nice finish in a silky lacquer and veneer. All of it done with great precision and regard for aesthetic and sound experience.

The modules can be combined to match any need or interior design. They can be placed on the floor on feet, stands or wheels – or be mounted on the wall for a more visually light expression. The unnu furniture are available with wooden doors and drawers – or doors in exclusive fabric to hide speakers and other equipment and still control everything with your remote without opening the doors.

Simple, elegant and beautiful.

NEWS

We are very pleased to be able to present a wide range of news and expand the existing unnu range.

We have had the desire to expand both our model and finish range in unnu for a long time.

We are introducing:

- New height
With this new height, unnu's range is even more flexible.
- New width
We are introducing furniture in 206,8 cm. width.
With furniture in this width it's even easier to create an elegant setup, where the focus remains on both the design and a good sound quality.
- New finish
All unnu models, wood doors and drawers are now available in 2 brand new veneer finished, oak and walnut.
- New fabric doors
5 new fabric door colors in a brand new series.
The mélange series consist of these new colors: Coal, Concrete, Frost, Coffee and Latte.
The 5 new colors compliment the 2 existing lacquer colors and the 2 new veneer finishes absolutely perfectly.
- Black cable cover plates
All cable cover variants are now available in both silver and black.

unnu model 220

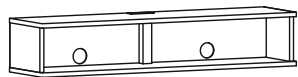

unnu model 220

Model 1540, 240, 1541 and 241 are reversible. This means that when installing, you can choose to have either 3 or 1 cable hole in the top plate.

unnu model 1540

DEPTH 25,5 CM

MODEL 12S
1 room · 2 back plates
